

Hosta autumn frost

Hosta autumn frost

ref. 11035

[\[+\] Show on the website](#)

Description

Coming from a hybridization of Hosta First frost.

Height : about 35/40 cm.

Width : about 50/60 cm.

Dimensions of the leaves : about 20x15 cm.

Heart-shape leaves, blue color with large buter yellow sides during spring that turn to creamy white in summer. Exceptional yellowing of the leaf center before it loses leaves in fall.

Medium size flowers that appear in June and September.

Variety known for its strength against slug attacks.

Big rhizome delivered in a 1 liter plastic pot.
