## **Description**

Coming from a hybridization of Hosta One lota supreme.

Miniature hosta, uncommon with the variegation on the leaves: various tones of apple green, dark green and yellow green. Much character.

Height: about 15/20 cm.

Width: about 20/25 cm.

Dimensions of the leaves: 6x6 cm.

Oval-shaped leaves, apple green in the middle in the beginning of the season and creamy white in the second half of the season. The sides of the leaves are dark green/ blue-green.

Small blue/purple flowers in summer.

Big rhizome delivered in a 1 liter plastic pot.
