It comes from seedlings and its trays require to be formed. This tree has a beautiful bark. Diameter of the trunk: about 100 mm. Nebari: 270 mm. Very good conicity of the trunk, no strong wound or mark on the trunk. Nice roots base. It comes from Master Mori's nursery. It may require to be reformed and ligatured in order to refine it. It is a perfect bonsaï to work on during workshops. There are some jins that got patina along years and make that bonsaï much more beautiful. Its original and atypic style and its old aspect are specificities that make it unique. Its owner may change the front face to make that tree much more beautiful.
