### Description

Large light green yellow leaves in spring, dark green in summer and orange colouring, fiery red yellow in autumn. Exceptional in autumn, some leaves will still be orange while others, more mature, will already be fiery red. Origin Japan Osaka introduction in Europe by Guy MAILLOT. At maturity this maple forms wavy branches in horizontal waves of the most beautiful effect, the only sieboldianum having this spectacular port.

### Technical description

<i>Species</i>	Acer sieboldianum
<i>Variety</i>	Sieboldianum seki no kegon
<i>Leaf colour</i>	Green leaves
<i>Leaf shape</i>	Palmated
<i>Adult height</i>	Between 2 and 4 meters
<i>Shape</i>	Natural
<i>Exposure</i>	Sun
