Description

Japanese White Pine Bonsai – Kokonoe Variety

Tree height (alone): 710 mm Branch width: 830 mm High-quality unglazed signed pottery, gray sand color: 480 x 370 x 115 mm Trunk diameters: 30-40-50-30-70 mm Nebari: 200-220 mm This Japanese White Pine, Kokonoe variety, is a true masterpiece for any passionate collector. At over 70-80 years old, it features magnificent branching, characteristic of the kabudachi style with multi-trunks, in perfect harmony. The five trunks subtly unite, creating beautiful cohesion and perfectly formed bark. This bonsai is a natural wonder, with no signs of wire marks or pruning scars, showcasing the meticulous care provided over the years. The Kokonoe variety, with its short needles, has the unique ability to back-bud easily, facilitating the creation of dense, aesthetic plateaus. A rare treasure, ideal for those who appreciate the art of bonsai. This specimen will bring a touch of elegance and serenity to any collection. Display stand not included. Photographed in January 2025.
