### Description

Leaves: purplish crimson in spring and then in May, variegated with orange, brown, red and yellow. In autumn they turn yellow or vermillion. Not all the leaves are variegated. For a lasting variegation he/it is indispensable to supervise the growth of non multicolored shoots and to suppress them. For a lasting variegation he/it is indispensable to supervise the growth of non multicolored shoots and to suppress them. The delivered plant will be of small size + - 25/30 cm .
