

## Hosta maui buttercups

*Giboshi maui buttercups*

ref. 6783

[\[+\] Show on the website](#)

### Description

Hosta 'Maui buttercups' gets its name from the very bright gold leaves. This is one of the hosta's most beautiful yellow hues. The foliage is heavily corrugated and cupped in the shape of a heart. Mauve flowers in July.

Height 30 cm x 60 cm wide.

Originator: W.Vaughn, 1992.

Derived from crossing a 'Frances Williams' and 'August Moon'.

**Big rhizome delivered in a 1 litre plastic container.**
