

# MAILLOT ERABLE

## Carpinus japonica 1 single tree

*Carpinus japonica*

ref. 88

[\[+\] Show on the website](#)

### Description

1 seedling delivered in a plastic pot.

Height 30/55 cm.

Ø of the crown + -3/5 mm.

Carpinus japonica or Japanese hornbeam has corrugated leaves that are green in spring, in summer young shoots appear pink and in autumn the foliage turns orange-red. This deciduous tree produces hop-like fruit clusters in late summer and autumn. Buy a few seedlings and make a bonsai forest.

**Be carefull potted in april 2020 don't touch the roots before autumn.**
