Description

Vivacious plant, rhizomes. Sold with a plastic pot.

This plant has the advantage of producing star-shaped white flowers long before the first leaves. The deeply cut palmate foliage is similar to maple leaves but slightly thicker. During summer the leaves are dark green and in late autumn they turn a vivid red before falling in winter.

Type: Herbaceous woodlander

Family: Saxifragaceae

Flower Colour: White

Flowering Season: Spring

Size: Flower stalks 10-15 cm high

Origin: Asia

Preferred Conditions: Moist, well drained soil

Preferred Aspect: Shade
